4 Note - CM 90 Day F/U (1st Mtg. @ this clinician, met IM. at JOTT)

S: "I'm ok. sometimes pretty good, other times not.... yeah I wanted to go EOP so I can move closer to my family [San Diego]... I.M. spec. % "I'd like the Benadryl back... for sleep..."

O: I.M. is a S, 50y.o., well-nourished, nicely groomed AA male of 6 (5-30yrs of age), I @ his mo. alive & well. (Misinformed re: EOP, where CDC transfers, etc... Open-minded & seemingly comprehended info., appreciative of same.) Mood = dysthymic, but broad range affect congruent to content of discussion. Clearly denies current S/H. I hx S/H; (+) hx violence. O/H, speech spontaneous, clear, coherent, organized, & report/evid. of Yotic sxs/process. Hx: ? A/H. see prior Dela Base. I & J - fair → good at this X. Historically - ~~slight~~ insight - severely limited & grossly impaired judgment & 2° sub. use/abuse. Minimizes this I.I. I.M. mentions some sleep disturbance, but no signif. ↓/↑ reported.

A: (Prod) Dx: Axis I Dep.D.O. NOS  
ETOH Dep.

Acute issues, concerns... would like Harriet appt re: Benadryl

P: - F/U CM ~ 30 days (exp. I.M. assigned to this clinician & ↑ info.)

- Harriet appt per sched ~ 1/mth; vs. I.M. Reg

Date/Time	Use Name & Title Stamp
1/17/07	CCCMS-N/A(8) cli a little depressed + I have a lot of paranoia. I was jumped at another prison by a couple of guys + I think it's going to happen again. Also cli not sleeping. I just can't go to sleep. I think about suicide once in a while but I never tried to kill myself. I'm not thinking about suicide now, I came here from SCC because of problems I was having with other I/mis there. My crime was ADJ + my EPRD is 2014. cli got good relationships with my mother + my kids. I think that I have improved my life + cli takes more responsibility for my behavior. (D) appeared stable, focused, coherent, + pleasant. (A) Depressive s/o, NDS + Bz photo s/o NDS. Has some depression + reports that he continues to be very paranoid. (P) Antine + CCMS. He attends one group for self-esteem. It is recommended that he also be in a 12 Step oriented group for his ETOT problem.

IP denies any suicide attempts, current SI or HI. IP reports he has mood swings "when I can't have my way." IP notes this is his first term for assault &amp; a deadly weapon. "Ever since then, I've been in a bad mood." He notes improving mood since starting on Prozac almost 1 month ago. Appetite is fine, sleep at 4-5 hours on Trazodone. DOC - ETOH (2-3 40oz beers). IP c/o feeling tired &amp; "no motivation at all." IP reports hearing his name being called and peripheral shadows, no true AH or VH. IP notes hypervigilance which he calls paranoia, but is more consistent &amp; sense of entitlement. IP also reports hypomanic episodes, but appears to be discussing better times &amp; true mood swings. Thinking focused on the inequities of the legal system &amp; his perceived right to reclaim items which his reports were taken from.</p>
